
Way back when...

50 years ago around the time when Winston Churchill resigned due to poor health from his role as Prime Minister, Highland Car & Motorcycle Club decided to run an all night event in the early part of the year. The month of February was chosen and due to the traditional weather at that time of the year, the name 'Snowman' seemed appropriate. So here we are 5 decades down the line getting ready for another season's opener in the Highlands.

To mark this milestone we are offering competitors 50 miles of fast 'n' furious action. Spread out over stages that made up parts of the original route way back in 1955 as well as roads that will accommodate our 20,000 spectators, we promise to kick the 2005 County SAAB Scottish Rally Championship off on the right foot. This is the start of the motor sport tour of Scotland that will finish in Perth in October. With Moray Firth Radio once again providing reports of all the action from the woods there is no-one in the region who will not know that the forests are reverberating to the sounds of rally cars speeding over the stages. For the second year running the rally was voted the Best Sporting Event by readers of the Inverness City Advertiser in 2004.

However, to put a dark mark on these celebrations we are the first rally to run in Scotland under the new prices agreed by the MSA and the Forestry Enterprise for the use of the Forestry's roads. This has led to the inevitable rise in entry fee that can be expected to be repeated by every event throughout the year. Also, because we aim to run over 45 miles we have to pay £59.58 from every entry fee to the MSA in the way of permit fees; almost double that normally paid for 45 miles. We have worked hard to keep the costs down whilst not compromising safety or the fun of the event and look forward to your support.

In 1976 Mercury Motor Inns (Thistle Hotel) started sponsoring the rally. They are now all geared up to get everything ready for the 30th running of the legendary After Rally Party. Special rates have been agreed for the event and details can be found further on. Jim Proctor, of Arnold Clark has been involved with the Snowman since 1991 and, once again he is welcoming us back to the premises in Harbour Road for Scrutineering as well as driving another event stalwart around in the Spectator Safety Car. Bruce Adams started marshalling on the 1958 Snowman Rally!

We look forward to welcoming you to Inverness in February, and please remember the marshals when sending in your entry. The famous Snowman bunnets are now in their 6th year and are highly sought after by those souls who enable you to enjoy your day's sport by marshalling. It can be chilly in February!

See you in the Thistle

Article 15. Controls and Timing

- Target Timing as defined in (K 30.4) will be used on this event.
- All clocks will be set to Greenwich Mean Time (GMT), using BBC or Telecom time signals.
- The Organiser's times and distances will be deemed to be correct. Controls and checks, except Special Stage Start Controls, will open 15 minutes prior to the due arrival time of the first car. Special Stage Start Controls will open at the times published in the Route Information Schedule contained in the Route Book. All Controls will close 30 minutes after the due arrival time of the last Competitor still running, having taken into account any delays (K 30.4(h)).
- Competitors must be ready to start a Special Stage at the provisional Start time entered at the Special Stage Arrival Control and/or when instructed by the Start Marshal (K.25.12, K30.4(k), K31(d)).

5. It is the Competitors' responsibility to ensure that their times are correctly recorded and handed in when and where instructed. Should any recorded time not be legible or not appear authentic, the Organisers may use any means at their disposal to establish a time.
6. To be classified as finishers, crews must present themselves with their cars at ALL CONTROLS within their permitted maximum lateness (Article 18.3).
7. Control and Stage Signs will comply with (K 28.8) and (K 28.11).
8. The Rally will consist of Road Sections and Special Stages.
9. **Road Timing** will be to the previous whole minute.
- 9.1 Each road section will be allocated a Target time based on an average speed of 30mph or less, and a Competitor can calculate his Due Time of arrival at any Time Control (TC) by adding this Target Time to his actual time of departure from the preceding TC.
- 9.2 It is using this Target Time (along with any lateness gained in Article 18.4.d) that lateness will be calculated. Therefore, if you exceed the Target Time for a road section, lateness will result. Each time a Competitor exceeds a Target Time the lateness incurred will be added to his previous lateness.
10. **Special Stage Timing** will be to the previous whole second.
- 10.1 All Special Stages will have a Bogey Time set at an average speed of 65 mph and a Target Time set at 30 mph (or less on short stages). Bogey Times and Target Times will be indicated in the road book and/or on the Time Cards.
- 10.2 Competitors will receive penalties on Special Stages as follows:
- Under Bogey Bogey Time
 - Over Bogey but under Target Actual Time Taken
 - Over Target by up to 30 minutes Actual Time Taken
 - More than 30 minutes over Target EXCLUSION
- Time in excess of Target Time on a Special Stage will count towards Competitors' Cumulative Lateness.
- 10.3 Competitors are reminded of (K 24.2.8) for details of computation of penalties in the event of a Special Stage being stopped. Should any Special Stage be cancelled during the event or deducted from the results after the event, only the Stage Penalties will be deleted. Unless an Official Bulletin has been issued to the contrary, the cancelled stage must be traversed within Target Time, and will in every other respect be treated as a Road Section.
11. **Time Controls**
The following titles shall describe the various types of Time Controls.
- A MAIN TIME CONTROL (MTC)
- The MTC at the Start, or after any other specified point, will be designated as a MTC(OUT).
 - The MTC at the Finish, or before any other specified point, will be designated as a MTC(IN).
 - At a MTC(OUT) Competitors will start, or restart, at one minute intervals either in numeric order, or in order of their arrival at the preceding MTC(IN) or as may be determined by the Organisers.
 - Each Competitor will be given a due starting time from any MTC(OUT) and any difference between this time and their actual starting time will be counted towards cumulative lateness. A time penalty will also be applied.
 - Competitors arriving at any MTC(IN) within their maximum permitted lateness will, subject to Article 15 above, restart from the associated MTC(OUT) with Zero lateness. Lateness is only accumulated between two successive MTC's.
- B SPECIAL STAGE ARRIVAL CONTROL (SSA)
- On arrival at a SSA Competitors will receive an arrival time and a provisional Start Time for the Special Stage, this will not be less than 3 minutes from the arrival time. The area between the SSA and the SSS is 'Parc Ferme', but should the crew need to change a flat tyre a maximum of five minutes will be allowed without penalty and the provisional Start Time will be amended accordingly. Competitors who arrive early may wait for their due time outside the control area (K.29.3).
 - After clocking in at a SSA Competitors must proceed immediately to the Stage Start Control or follow the Marshals instructions.
 - The dead time between SSA and SSS at some stages may be used as a regrouping halt. This is dead time and will not count towards any accumulated lateness.
- C SPECIAL STAGE START CONTROL (SSS)
- At the SSS a Competitor will be given a start time for the Stage in hours and minutes. Once Competitors have clocked in at a SSA, the Start Marshal will assume they are ready to start the Stage and will issue a Start Time as soon as the Start Line is clear, whether Competitors are ready or not.
 - As each section is timed separately, the time taken from SSA to SSS is 'Dead Time' and delays are automatically allowed for.

D SPECIAL STAGE FINISH CONTROL (SSF)

- At the SSF Competitors will receive their Finish Time in hours, minutes and seconds. This time in hours and minutes constitutes a Competitor's Start Time for the following Road Section.
- Any Competitors who fail to stop at the Stop Line must return on foot. Reversing the car is prohibited and subject to the penalty of EXCLUSION (K 25.9.1 and K 31(p)).

E SERVICE CONTROL (SV)

- Certain Service Areas will have 'IN' and 'OUT' Time Controls. At Service Areas not designated as Main Time Controls, a Target Time will be specified between these controls.
- The section between SV(IN) and SV(OUT) will be marked as a Road Section.

12. Other Controls

The following titles shall describe the various types of control other than Time Controls.

A PASSAGE CONTROL (PC)

At certain points indicated in the Road Book, the Organisers may establish a PC in order to collect Time Cards from Competitors, or for other purposes. Competitors failing to provide the necessary documents at any PC will be deemed not to have reported there and may be EXCLUDED (K 31(a) and Articles 15.5 and 15.6). Any times recorded at a PC will be used only to ensure that Competitors have followed the requirements of the Road Book, and not to calculate Cumulative Lateness.

B ROUTE CHECK (RC)

The Organisers may also establish checks along the route in accordance with (K 3.3.2).

Article 16. Pace Notes

1. Pre-event practising or testing over the Special Stages on this event is forbidden (K 6.2) and (K 26.6).
2. The possession of pace notes, as defined in (K 25.13), by a Competitor during the course of the rally, whether or not they relate to the stages being used on the rally, is forbidden. This does not preclude the use of Ordnance Survey Maps specified in the regulations as being necessary to complete the route.
3. Practice, Reconnaissance or the use of Pace Notes is not permitted, but the use of Subjective Route Notes purchased from the Scottish Rally Championship approved supplier, Scotmaps, may be used. These instructions will not be defined as Pace Notes. Information from the Route Book or the Official Bulletins may be transferred to and from the authorized maps listed in these Regulations.
4. Competitors shall indicate on the Scotmaps Order Form which system of Route Notes they require. Please note that, once ordered, the style of Notes requested cannot be changed. **Only the notes provided for the 2005 event by the Scottish Rally Championship approved supplier are to be used (K 25.13).** In all instances, competitors are advised that the Organisers accept no liability or responsibility whatsoever in the use of the Subjective Route Notes. Orders can be placed through www.scotmaps.co.uk
5. The Organisers may set up checks at certain locations where Competitors and competing cars will be searched. The penalty for being found in possession of pace notes, or refusing to allow a search for these to be made is EXCLUSION, in accordance with Article 18.4(p) of these regulations. The Organisers request the co-operation of all Competitors in order to reduce any delay.
6. From the date of publication of these regulations, where it is established that a Competitor or entrant, their agents, representatives or any other person has caused, or arranged, directed or carried out reconnaissance, inspected or noted, in any form, within the area covered by maps listed in these regulations, before Competitors have covered the stages, they will be EXCLUDED FROM THE RESULTS or REFUSED PERMISSION TO START, as appropriate to the case, and will be reported to the Motor Sports Association (K 6.2). The only exception to this regulation will be for persons who live on, or whose employment causes them to travel along a road used on the event.

Article 17. Servicing

1. Servicing is defined as work being carried out on the car by any person other than the Competing crew, or the use of any part or tool not carried in the competing car (K 34).
