

ROUTE EXPLANATION

LEG 7

TC49 to TC50

Novice

TC 49 (277575→N) to TC 50 (289605)

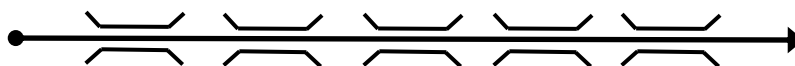

AR

Cross bridges in the following GS's - 2857 2858 2759 2859 2860

Expert

TC 49 (277575→N) to TC 50 (289605)

AR

Different looking, but in fact similar instructions for both classes here. Novices are given the grid squares in which the 5 bridges are located, but the Experts have to find them. Both classes are given the target TC map reference.

In fact, there are only 5 bridges in this vicinity (including Watsons Bridge!) so, once you have spotted them, the challenge is to find a route which picks them all up.

Not too difficult really once you work out that you have to turn right before the bridge in GS2857, rather than crossing it first.
