Explanation

A gentle finish for both classes, with very similar instructions. This one is all about finding the shortest route.

The 151, PH and 209 combination seems quite straightforward, with a route from SH 151 heading NE through Kilkinamurry to the PH, before a TR to pick up SH209. From there it is TL to TC36 via the crossroads. The shorter route appears to be XSO, to approach TC36 from the E. But a measure will confirm that the shorter route is XL, approaching TC36 from the W.

But in fact, neither of those is the correct route. There is another PH in GS2442. Go via that one and your overall route to TC36 is shorter.

And you pick up the letters “w” from Littleview House, and “ON” from SCALLION HILL. So if you find the correct route, you really have “wON”.
