Explanation

A genuine Wow moment to finish.

Both classes have the MR for TC9, so it's just a case of finding the route to pick up the letters.

Having to first of all head south for the "ugh" is perhaps the only tricky spot.

And at last we have made it to the middle of the map.

Hope it has been Wow for you, and not ugh!

If you are still with us, Leg 2 starts from TC9.
